

СЛРЕ

Cape Aerial Telepresence

Cape users can connect to drones anywhere, and safely fly. The only software for remote drone operation.

- Remote Drone Operation
- Livestreaming
- Data Management
- Flight Safety

FAA Integrated Pilot Program (IPP)

- Announced by FAA in May 2017
- Goal of the [IPP](#) is to accelerate safe drone integration
- Help USDOT and FAA craft new rules that support the complex low-altitude operations safely
- IPP [participants](#) tasked with testing operational concepts such as BVOLS, flight over people, flights at night, package delivery, detect-and avoid, etc
- Cape and the City of San Diego are one of the 10 partnerships selected

CAPE PILOT RESULTS

Chula Vista Police Department

- **442** total missions flown
- **60** drone involved arrests
- **205** DFR first on scene
- **102** seconds avg. response time

VIDEO: CNN April 2018

Ensenada Mexico

- **2545** total missions flown
- **576** drone involved arrests
- **147** drone interventions
- **4.4** average flights per every arrest

Results:

- **10%** drop in overall crime rates
- **30%** drop in home robberies
- **90-95%** reduction in police response time to calls for service

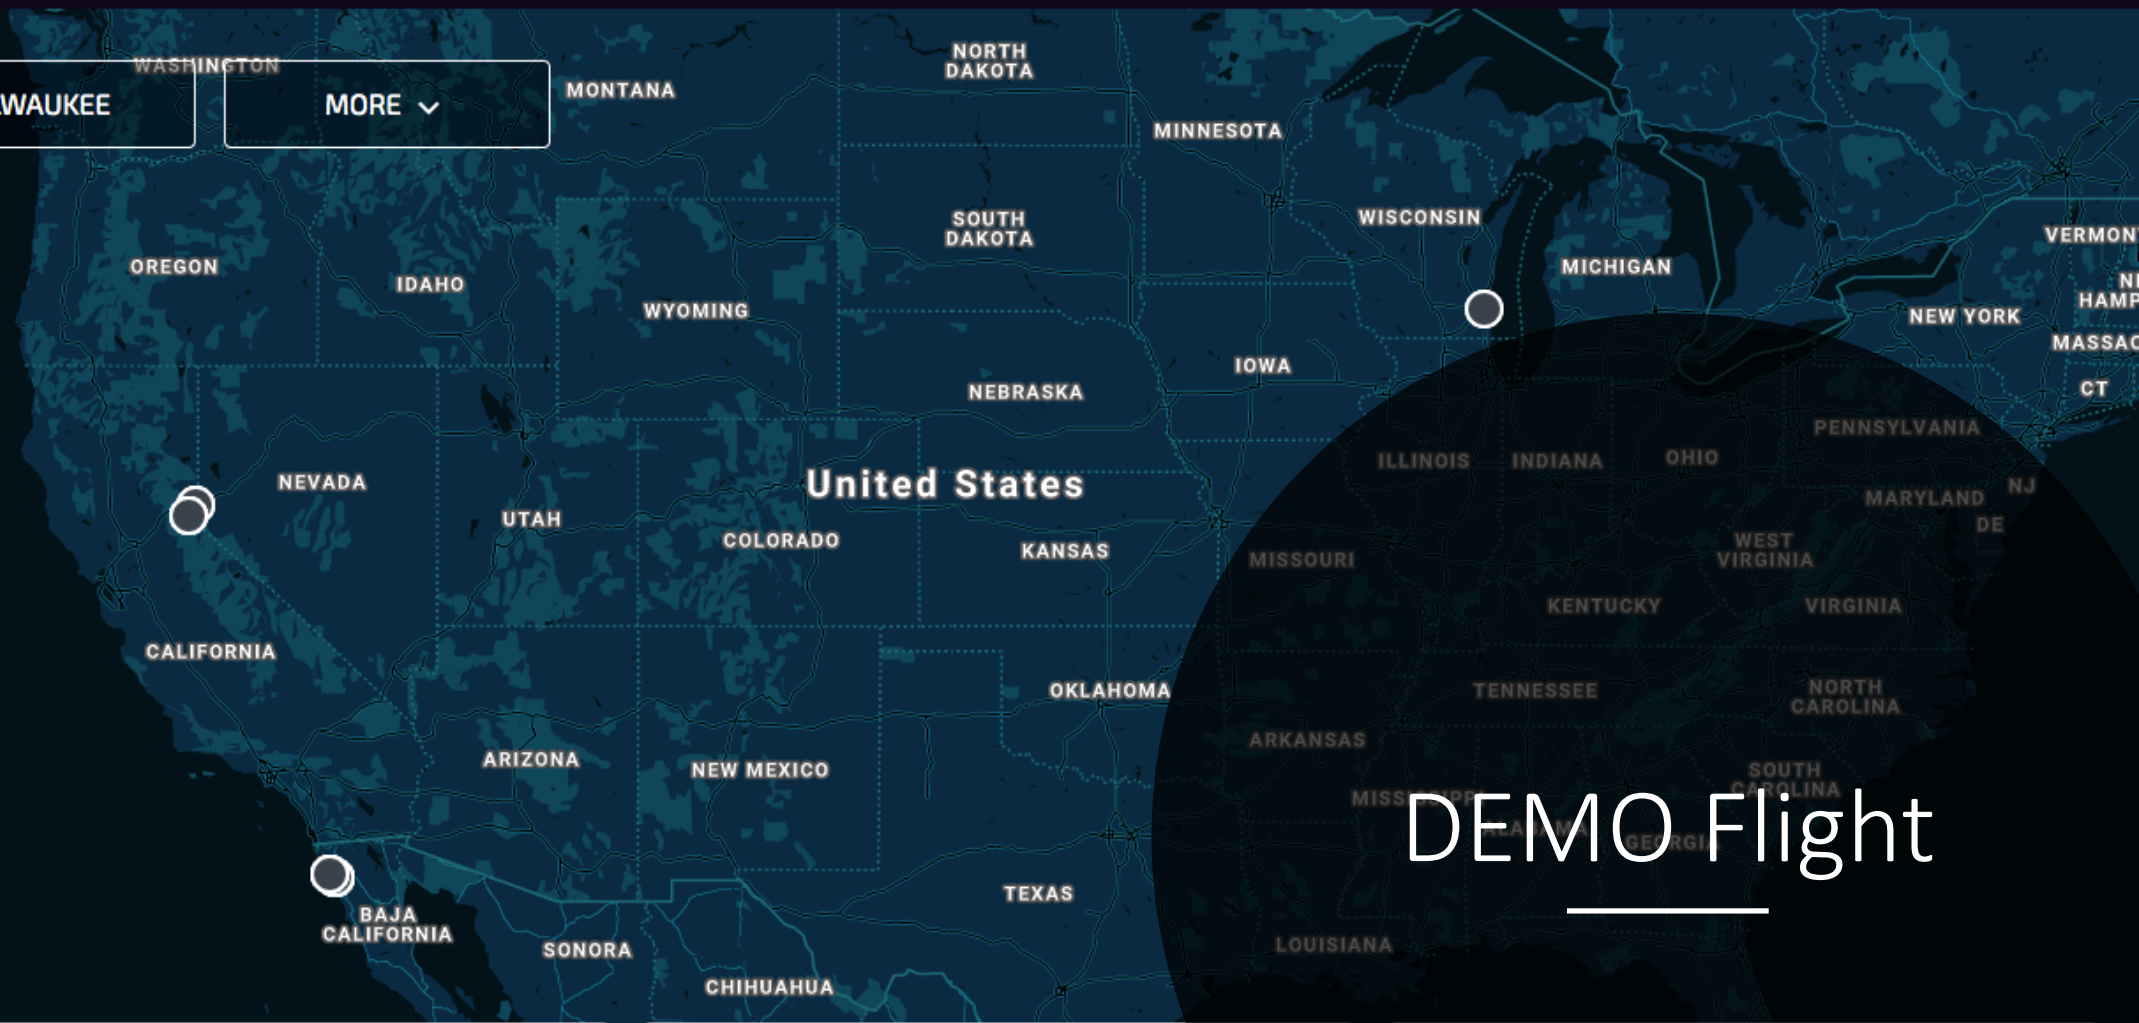

Police capture suspects using Cape
